

Competition Briefing 2023

Our 2023 theme - A View on the World

- Transcript
- Storyboard
- Film

90 seconds to tell us about the view(s) in your local area

Three Questions:

- *How have religious and non-religious worldviews changed over time where you live?*
- *How would you describe the mix of worldviews in your community today?*
 - *What might it look like in 50 years' time?*

Where do I start?

- Worldviews- everyone has one! Nobody Stands Nowhere
<https://www.youtube.com/watch?v=AFRxKF-Jdos>
- Listen to views from a particular perspective. How about a Jewish Parent? Zoroastrian businessman? Sikh lecturer?

- Read about or listen to different worldviews? Ask some questions such as why did this person's worldview change? Does this person have a religious or non-religious worldview? Ask children to write questions they would ask this person if they met them.

Get Creative!

- **Make it local!** Involve your local community if you can. Parents, friends, family...as well as local faith/belief leaders or members of local faith/belief communities. Why not dig into some of the census data?
- **Make it visual!** Think about how you will use the local area. Even if you're creating a transcript, think about where you would locate it, where the filming would take place if you were to win.
- **Make it unique!** Use the gifts and talents of your children and young people – budding film makers, photographers, writers, illustrators interviewers...
